

HUDL Fan App - Quick Start Guide

What you need:

- A smartphone or tablet (Smart TV's Ex: Apple TV, Firestick)
- Your App Store / Google Play sign-in (Apple ID or Google Account)
- Internet: Wi-Fi is best. Cellular works if signal is strong

1) Download the app

iPhone/iPad: Open App Store > search "Hudl Fan > Get > Authenticate

Android: Open Google Play > search "Hudl Fan" > Install

2) Create or Sign-In

Open Hudl Fan > Choose sign in with Apple/Google OR Create Account.

If you create an account, check your email for a verification code and confirm.

3) Follow Your Team

Tap Search > type your school/team (Mount Horeb) > open it > tap follow

You'll now see upcoming games on the team page.

4) Find the Game & Watch

On the team page, pick the correct date/game > tap watch

5) Get Set Before Kickoff (5-10 Minutes Early)

- a) Plug in your device or have 50%+ battery
- b) Use Wi-Fi if possible
- c) Close other streaming apps. Turn on Do Not Disturb
- d) Update Hudl Fan in your app store if an update is available

6) Watch on the TV

- a) *AirPlay (iPhone/iPad)*: Connect phone & TV/Apple TV on the same Wi-Fi > start the stream > Tap the AirPlay icon > choose your TV
- b) *Chromecast (Android)*: Same Wi-Fi > start the stream > tap the Cast icon > Choose your Chromecast/TV
- c) *HDMI Cable*: Use a lightning to HDMI (iPhone) or USB-C to HDMI (Android) adapter > set TV to the correct HDMI input.

Troubleshooting (quick fixes):

Can't find the game: Pull to refresh > confirm date/time > make sure you followed the right school

Video Won't Start: Tap Play > then close and reopen the app > power off/on the device > update the app

Buffering/Freezing: Move closer to router > limit other devices > try cellular vs Wi-Fi or vice-versa

No Sound: Turn up volume > unmute phone side switch (iPhone) > disconnect Bluetooth headphones > check speaker icon in the player

Casting Problems: Ensure phone and TV are on the same Wi-Fi > restart TV/cast device > stop casting from other apps

Need Help?

Ask a nearby volunteer/coach. If the stream hasn't started yet, wait for the broadcaster to go live close to kickoff.
